

## PRESS RELEASE

### WeGenerate Fellow Cities have been selected

**Following the call launched by the project earlier this year, the cities of Cartagena, Kadıköy, Liepāja, Szombathely and Zagreb are the five WeGenerate Fellow Cities.**

In response to the WeGenerate Call for five Fellow City positions, the project received 26 highly-qualified applications from 16 different countries.

After a thorough examination of all applications, Cartagena (Spain), Kadıköy (Türkiye), Liepāja (Latvia), Szombathely (Hungary) and Zagreb (Croatia) are now a part of the WeGenerate Community, participating as part of the **Fellow Cities Exchange Programme**. They will play an important role as active contributors and early adopters of new people-centred neighbourhood regeneration innovations being implemented in the WeGenerate Demo Cities. Through online exchanges and capacity building sessions, as well as during in-person Study Visits to each Demo City, they will be better able to understand and contextualise the WeGenerate solutions for their city for future implementation.

A dedicated Replication team — composed of experts from the WeGenerate consortium — will work with all WeGenerate Cities to produce an **Urban WeGenerate Guidance Package and Replication Roadmap**, featuring each Fellow City.

The Fellow Cities Pre-Boarding Meeting will be held in late September 2024, followed by an in-person Study Visit and On-Boarding in Cesena in October.

**WeGenerate - Co-creating people-centric sustainable neighbourhoods through urban regeneration** is a Horizon Europe Innovation Action seeking to infuse the elements of people and co-creation in the urban regeneration processes. The project is based on the journeys of four neighbourhoods and their communities located in different parts of Europe: Bucharest (Romania), Cascais (Portugal), Cesena (Italy) and Tampere (Finland).
